KONGRE HAKKINDA

Uluslararası Ankara Bilimsel İncelemeler ve Araştırmalar Kongresi, sosyal bilimler, fen bilimleri, mühendislik, sağlık bilimleri ve eğitim bilimleri başta olmak üzere çok disiplinli bir akademik çerçevede yürütülen güncel ve özgün araştırmaların bilim dünyasıyla paylaşılmasını amaçlayan uluslararası nitelikli bir bilimsel organizasyondur.

Kongre; farklı coğrafyalardan ve disiplinlerden araştırmacıları ortak bir akademik zeminde bir araya getirerek bilimsel diyalogu güçlendirmeyi, disiplinler arası iş birliğini teşvik etmeyi ve küresel ölçekte nitelikli bilgi üretimine katkı sunmayı temel hedefleri arasında konumlandırmaktadır.

Kongre kapsamında sunulan tüm bildiriler, uluslararası akademik yayın standartları ve bilimsel etik ilkeler doğrultusunda çift kör hakemlik sistemi ile değerlendirilmiştir. Değerlendirme sürecinde çalışmaların özgünlük düzeyi, yöntemsel sağlamlığı, literatüre katkısı ve bilimsel niteliği titizlikle incelenmiştir. Bu kapsamlı akademik değerlendirme süreci sonucunda 68'i Türkiye'den olmak üzere 31 farklı ülkeden toplam 171 bildiri kabul edilmiştir.

Kabul edilen bildiriler, ISBN ve DOI numaraları ile kayıt altına alınarak yayımlanacak olan bildiri kitabında yer alacak; böylece çalışmalar uluslararası ölçekte erişilebilir, kalıcı ve atıf yapılabilir bir akademik kaynak niteliği kazanacaktır.

ABOUT THE CONGRESS

The International Ankara Congress on Scientific Research and Reviews is an international scientific organization aimed at sharing with the scientific community current and original research conducted within a multidisciplinary framework, particularly in social sciences, natural sciences, engineering, health sciences, and educational sciences.

The Congress identifies its primary objectives as strengthening scientific dialogue by bringing together researchers from diverse geographies and disciplines on a common academic ground, fostering interdisciplinary collaboration, and contributing to high-quality knowledge production on a global scale.

All papers presented within the scope of the Congress have undergone a double-blind peer-review process in accordance with international academic publishing standards and scientific ethical principles. During the evaluation process, the originality, methodological soundness, contribution to the literature, and scientific quality of the studies were meticulously examined. As a result of this comprehensive academic evaluation process, a total of 171 papers from 31 different countries—including 68 from Turkey—have been accepted.

Accepted papers will be published in the Conference Proceedings, registered with ISBN and DOI numbers; thereby, these studies will become internationally accessible, permanent, and citable academic resources.
